

CORRIGENDUM

An error crept in somehow but inadvertently in paper “D. Khan, M.J. Zaki and I. Jahan (2020). Seed weight variation of sunflower germplasms: Revisited (*short communication*). *Int. J. Biol. Biotech.* 17(2): 433-435.”

The phrase, ‘Hysun 666’ is mistakenly entered in the paper as a variety of sunflower. It may correctly be read as ‘US 666’ instead. The mistake is highly regretted and inconvenience to its readers is acknowledged sorrowfully.
